

Homework 3 (Python Sockets)

This exercise is designed for you to practice Python socket programming.

Concepts

- What is a **socket**?
- How to use UDP sockets
- How to use TCP sockets
- Client/Server applications
- UDP vs TCP communication
- Berkeley Sockets API

Study these online references,

- [Programming UDP sockets in python](#),
- [Programming TCP sockets in python](#),
- [Python Network Preprogramming](#).

Then, answer the questions in "Exercise 3" under "Tests & Quizzes".
